David Doebler and his wife have sold a condo on the 77th floor of Trump Tower to a buyer who wants to combine units.

NBC 5 President David Doebler listed and sold his condo on the 77th floor of the Trump Tower today for \$2.925 million.

Doebler and his wife, Susan, purchased the condo for a little more than \$2.837 million in 2014. The listing from when he bought it indicates it's a three-bedroom, four-bath, southern-facing unit of 3,102 square feet. It also has a den and two fireplaces.

Listing agent Chezi Rafaeli says Doebler was approached by the buyer, who wants to combine two units, and Doebler accepted. He says Doebler already owns another unit in Trump Tower, and plans to move into it.

Rafaeli declined to share further details.
